

Penedos de Góis mountain biking

Preparation guide | EN

A mainly downhill guided route towards Góis town.

Practical information

Programme: Guided mountain biking in the Penedos de Góis landscape.

Requirements: Requires bicycle-handling skills and fitness suitable for the selected route.

Format: A guided activity, separate from equipment-only bicycle hire.

The experience

The mountain-bike route links the Penedos de Góis area with the town, progressing mainly downhill. Ground is generally regular with uneven sections: mountain-bike handling distinguishes this route from independent bike rental.

Programme and options

The guided route links the Penedos de Góis area with Góis town and runs mainly downhill. Share your mountain-biking experience to plan the programme and access/return arrangements.

Requirements and preparation

Physical coordination and some mountain-biking experience are needed to control the bike on descents and uneven sections.

Meeting and logistics

The route links Penedos de Góis with Góis town. Arrange the meeting point and access and return transport with the team.

Preparing your visit

This guide brings together practical information for this activity. Read the preparation and equipment list and agree any remaining meeting or participation arrangements with the team. It is not a booking confirmation or a quotation.
