

CANOEING

Zêzere River I

Bouça Dam - Foz de Alge

DESCRIPTION

Canoeing descent of **Zêzere River** in a section of approximately **7 km** long, starting downstream from **Bouça Dam** and ending in **Foz de Alge**, next to the campsite, in the municipality of Figueiró dos Vinhos. This is the **first of three sections** we organize on this river.

Although it is a **section between dams** and, **normally**, with **calm waters**, small rapids can form in the rocky gorges at the beginning of the descent whenever the Bouça Dam is operating. This is an ideal route for beginners in canoeing. **Great all year round!**

What to bring?

Clothing appropriate for the season and daytime conditions. In summer, bring a hat, sunscreen, light clothing, water, a light lunch, closed sandals or shoes that can get wet (do not wear flip-flops), dry clothes, and a towel. In winter, bring a swimsuit and lycra to wear under the neoprene suit, old shoes if you are not using neoprene boots, water, a light lunch, dry and warm clothes, and a towel.

Almoço

Each participant must bring their own packed lunch. We recommend sandwiches, energy bars, etc.

Alternatively, contact us directly to receive lunch options from restaurants, catering, or pre-made snacks to complement your activity!

Recomendações

During periods of higher water flow, the descent depends on an assessment on the day itself and may be cancelled. Participation is not recommended for those under 16 years of age in autumn and winter. Glasses must have a safety cord. It is not recommended to bring electronic equipment; valuables should be kept in a backpack and nothing should be visible in the vehicles.

Great for big groups!

Have fun in the river!

Beautiful views!
